

iMultiMix 8 USB

MIXER AND AUDIO RECORDING WORKSTATION WITH UNIVERSAL DOCK FOR iPod

MIX AND RECORD DIRECTLY TO THE WORLD'S MOST POPULAR MUSIC DEVICE. The iMultiMix 8 USB is a sturdy, compact all-in-one tabletop mixer and recorder that features 100 studio grade 28bit digital effects, a built-in limiter and an integrated iPod dock with control wheel transport controls for fast, easy direct-to-iPod recording.

As an important addition to the Alesis line of highly acclaimed mixers, the iMultiMix 8 USB is the first to feature integrated iPod control and recording capability at up to 44.1kHz. The iMultiMix 8 USB brings together professional quality mixing, 3-band per-channel EQ, guitar/line inputs and iPod recording in a single, intuitive package. For ultra-clean live recordings of nearly any performance, including home studios, musicians, podcasters, and houses of worship, the iMultiMix 8 USB is the ideal solution.

Once recordings are completed, simply use the convenient *Transfer to iTunes* feature to move your recordings to a computer with Mac OS X or Windows XP or Vista without need for special drivers or complicated set-up. All channels are mixed down to your computer at either CD-quality stereo 44.1 or 48 kHz.

The iMultiMix 8 USB can also playback music from the iPod, and mix your live performance instantly with the iPod. This makes the iMultiMix 8 USB perfect for using the iPod as a backing track for solo or band performances, while mixing sound sources all in one compact, convenient place.
