Warnings and Precautions

1. Read all of these warnings and save them for later reference.
2. Follow all warnings and instructions marked on this unit.
3. Unplug this unit from the wall outlet before cleaning. Do not use liquid or aerosol cleaners. Use a damp cloth for cleaning.
4. Do not use this unit in or near water.
5. Do not place this unit on an unstable cart, stand, or table. The unit may fall, causing serious damage.
6. Slots and openings on the cabinet top, back, and bottom are provided for ventilation. To ensure safe and reliable operation of this unit, and to protect it from overheating, do not block or cover these openings. Do not place this unit on a bed, sofa, rug, or similar surface, as the ventilation openings on the bottom of the cabinet will be blocked. This unit should never be placed near or over a heat register or radiator. This unit should not be placed in a built-in installation unless proper ventilation is provided.
7. This product should only be operated from the type of power source indicated on the marking label of the AC adapter. If you are not sure of the type of power available, consult your Datavideo dealer or your local power company.
8. Do not allow anything to rest on the power cord. Do not locate this unit where the power cord will be walked on, rolled over, or otherwise stressed.
9. If an extension cord must be used with this unit, make sure that the total of the ampere ratings on the products plugged into the extension cord do not exceed the extension cord's rating.
10. Make sure that the total amperes of all the units that are plugged into a single wall outlet do not exceed 15 amperes.
11. Never push objects of any kind into this unit through the cabinet ventilation slots, as they may touch dangerous voltage points or short out parts that could result in risk of fire or electric shock. Never

- spill liquid of any kind onto or into this unit.
12. Except as specifically explained elsewhere in this manual, do not attempt to service this product yourself. Opening or removing covers that are marked “Do Not Remove” may expose you to dangerous voltage points or other risks, and will void your warranty. Refer all service issues to qualified service personnel.
 13. Unplug this product from the wall outlet and refer to qualified service personnel under the following conditions:
 - a. When the power cord is damaged or frayed;
 - b. When liquid has spilled into the unit;
 - c. When the product has been exposed to rain or water;
 - d. When the product does not operate normally under normal operating conditions. Adjust only those controls that are covered by the operating instructions in this manual; improper adjustment of other controls may result in damage to the unit and may often require extensive work by a qualified technician to restore the unit to normal operation;
 - e. When the product has been dropped or the cabinet has been damaged;
 - f. When the product exhibits a distinct change in performance, indicating a need for service.
 14. Due to the general consumer usage behavior, efficient power distribution on the field, corporate environment responsibility by eliminating harmful substances such as carbon dioxide, sulphur dioxide, etc, and other unexpected risks, this product does not provide standby power option.

What's in the box?

- 1 x Switching Adaptor 12V/500mA
- 1 x DAC-60 Quick Start Guide
- 1 x User Adjust Tool CD

Introduction

Datavideo is proud to introduce the cost-effective HD/SD-SDI to VGA converter, the revolutionary DAC-60. The introduction of the DAC-60 has demonstrated a convenient way to convert the mainstream High Definition and Standard Definition SDI in broadcast industry to VGA based equipment such as projectors, plasma TV, and LCD screens, providing high quality live and recorded videos through both HD and SD signals for your demanding production needs.

Features

- Supports 3G/HD/SD-SDI format :
 - SD - 720 x 480 i / 720 x 576 i
 - HD - 1280 x 720 50p/60p/59.94p
1920 x 1080 50i/60i/59.94i
1920 x 1080 24p/25p/30p
 - 3G - 1920 x 1080 50p/60p/59.94p
- Auto 3G/HD/SD-SDI detection
- Firmware is upgradable in the field using the integrated USB port
- The converter is Plug-and-Play
- Dual output are available (SDI & VGA)
- Support Brightness, Contrast, Hue and Saturation of Adjustment.

Functions

Front Panel

HD/SD - SDI IN / OUT

HD - SDI input and pass-through output connectors.

Power Switch

Switches the power On / Off.

DC In Socket

Connect the supplied 12V PSU to this socket. The connection can be secured by screwing the outer fastening ring of the DC In plug to the socket.

USB

Upgrade Firmware/ Control Box by PC

Rear Panel

VGA Output

Connect your VGA equipment to this connector

LED

The LEDs to indicate VGA output format

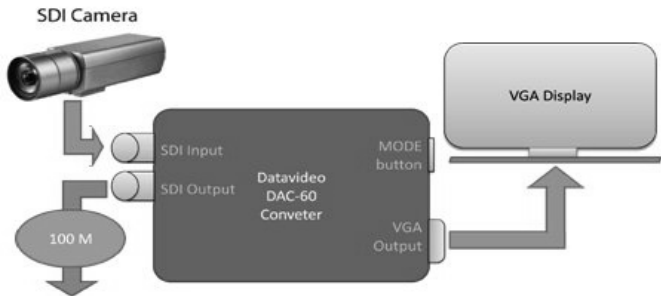

Mode Select

Select VGA Output Format

DAC-60 installation

1. First make sure your equipment is not connected to power or disconnect all power connectors before connecting the video equipment.
2. Connect Video Source (SDI) to the BNC input connector.
3. Connect VGA equipment to the VGA connector.
4. Connect optional SDI equipment to the BNC output connector.
5. Connect the +12V DC power adapter to the converter.

LED Indication

DAC-60 can work with six presets, which can be selected by pressing the menu button.

LED Indication	Resolution
●○○ ○○○	800x600 60Hz
○●○ ○○○	1024x768 60Hz
○○● ○○○	1280x1024 60Hz
○○○ ●○○	1366x768 60Hz
○○○ ○●○	1400x1050 60Hz
○○○ ○○●	1600x1200 60Hz

● - LED ON

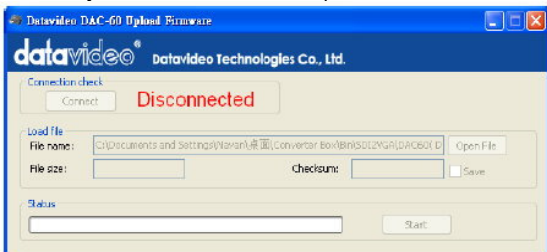

○ - LED OFF

Firmware Upgrade

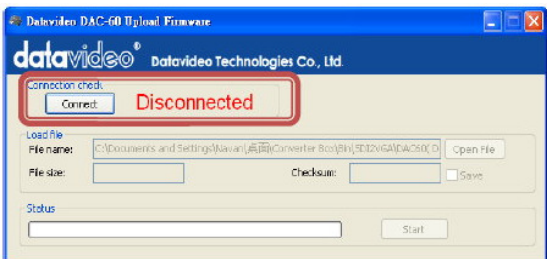

If you need update DAC-60's firmware please check the **User Adjust Tool** CD or you can link www.datavideo-tek.com download the tools.

Firmware is upgradable in the field using the integrated USB port.

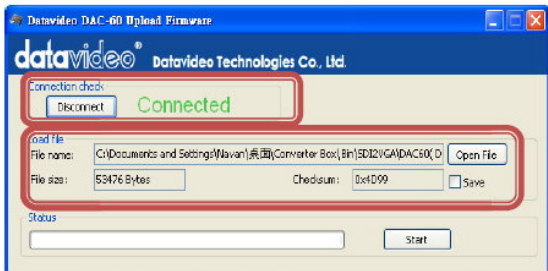

Step 1- open upload firmware program tools.exe, connect unit to PC by USB cable and turn off power

Step 2 - turn on power

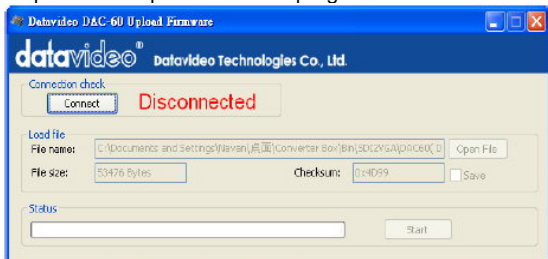

Step 3 - Turn off power and back on again to reset unit and select firmware.

Step 4 - press start button to update the firmware

Step 5 - close upload firmware program tools

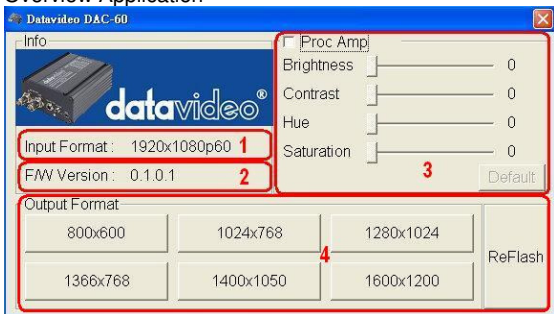

Adjust Proc Amp

Settings the Brightness, Contrast, Hue and Saturation port

Please copy "Adjust Proc Amp" tool from "User Adjust Tool" CD before you setting.

Overview Application

1. Input format
2. Box firmware version
3. Brightness, Contrast, Hue and Saturation settings
4. Setting the Output Format

Notice 1: First connect the unit to the PC via the included USB cable.

Notice 2: When the application is turn on, the first Priority is PC.

Control Priority	Function
1	PC controller (Application)
2	Box Controller (Button)

Dimensions

Specifications

Supported Input Video Formats	SD - 720 x 480 i / 720 x 576 i HD - 1280 x 720 50p/60p/59.94p 1920 x 1080 50i/60i/59.94i 1920 x 1080 24p/25p/30p 3G - 1920 x 1080 50p/60p/59.94p
SDI Formats	SD-SDI (SMPTE 259M) HD-SDI (SMPTE 292M) 3G-SDI (SMPTE 494M/495M)
VGA Output Formats	800 x 600 60Hz 1024 x 768 60Hz 1280 x 1024 60Hz 1366 x 768 60Hz 1400 x 1050 60Hz 1600 x 1200 60Hz
Re-clock Function	Yes (Default)
Firmware Updates	Via USB
Software Support	Yes (OS: Windows XP/ Windows 7)
Coaxial Cable Type	RG6/RG59 (75Ω)
Cable Equalization	3G: 140m of RG6/ 100m of RG59 HD: 200m of RG6/ 140m of RG59 SD: 400m of RG6/ 280m of RG59
Input Connections	1 x BNC [SDI]
Output Connections	1 x VGA 1 x BNC [SDI]
BNC Connectors	3G 75 Ω inter-locked socket
Button	Switch VGA Format
Power Source	AC 100 ~ 240 V / DC (12V/0.5A)

Service & Support

It is our goal to make your products ownership a satisfying experience. Our supporting staff is available to assist you in setting up and operating your system. Please refer to our web site www.datavideo-tek.com for answers to common questions, support requests or contact your local office below.
